DETAILED ACTION

Applicant's argument filed 13 January 2006 have been fully considered but they are moot in view of the new grounds of rejection presented in this Office Action. Consequently, this action is made non-final.

Claim Rejections - 35 USC § 112

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 1-44 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. It is not clear how the contradiction is restated because there is no mention of any statement before the claimed restatement. It is not clear how the contradictory elements affects the results of the search "according to the semantic role of the words in the database" as being claimed in claims 1, 12, 23, 34.

Art rejection is not being applied because the claims limitations cannot be ascertained.
